BLOODLINES OF CHAMPIONS = BREEDING CONSISTENCY

***ORIGAN** was bred to run and win — He was called the "Iron Horse" in Poland racing three seasons, never missing a race. True to his breeding, he won four stakes races including the highest purse race (The International Animex Cup) in which he defeated Poland's finest including the Derby winner. A comparison of ***ORIGAN's** winning times with other Polish horses who achieved greatness on the U.S. track is enlightening. *The chart below compares only the fastest winning times for each horse at distances won at the Warsaw track.*

HORSE	**Index of Use	METERS						
		1600	1800	2000	2200	2400	2600	2800
*ALGORAB 1/7 (3-2-1)	4.45	2:02	2:07		2:51			
*MOHACZ 3/16 (6-4-3) 2	1.93		2:15	2:35	2:48	2:59		
*ORIGAN 3/25 (6-10-1) 4	9.59	1:57.5			2:42		3:08	3:26.5
*ORZEL 1/7 (2-3-1)	2.73	1:58	2:10					
*SAMBOR 1/8 (3-2-1)	2.57	1:56	2:09.5					
*WIKING 3/19 (8-4-1) 5	4.80	1:55	2:10	2:28	2:42	3:03	3:14	

*This chart compares racehorses imported from Poland who later became Race Champions in the U.S. While track conditions vary, this shows that ***ORIGAN** is highly competitive over a broad range of distances when compared to these., classic U.S. Race Champions.*

** Index of Use Value is the index which enables comparison of race horses for each foal crop — the higher the number, the more successful. It is comprised of the sum of money won and the number of starts.
